

NICOTINAMIDE ADENINE DINUCLEOTIDE (NAD+)

250mg or 500mg |
up to 2 treatments per unit

Anti Aging & Neurogenerative

for intravenous use only

Olympia Pharma is comprised of a state-of-the-art FDA 503B pharmaceutical outsourcing facility, and a 503A pharmacy. Both facilities provide access to high quality age management and nutritional medications.

OVERVIEW

NAD and *NAD+* occur naturally in the body. They play a major role in the chemical process of generating energy. *NAD+* is probably the most important co-factor for improving mitochondrial function. Mitochondria are intracellular organelles (a.k.a. "energy powerhouses") where micronutrients are converted to energy-rich ATP molecules for the cell. *NAD* helps the liver break down fats that are essential to provide energy for the body. Boosting *NAD+* may help manage a wide spectrum of diseases, ranging from diabetes to cancer. When *NAD* is given intravenous, some research has shown it can improve:

- ✓ Mental Clarity
- ✓ Alertness
- ✓ Concentration
- ✓ Memory
